DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with S. Peter Ludwig on 04/28/2006.

The application has been amended as follows:

IN THE CLAIMS:

Amend the claim using the same format as Applicant's use- except for repeating the other non-amended claims:

Claim 5 (Currently Amended): A food comprising the antioxidant of claim 1.

The following is an examiner's statement of reasons for allowance: An extensive search of both patent and non-patent literature was conducted and finds that the subject matter is free of the art. Thus, the Examiner notes that the prior art does not teach the instantly disclosed antioxidant comprising acerola seed extract, nor does the prior art teach a skin preparation for external use comprising the antioxidant comprising acerola seed extract, nor does the prior art teach a cosmetic comprising the antioxidant
